Welcome

Our 2023 catalogue has an increased focus on renewable, recyclable and sustainable products.

In collaboration with our suppliers we are making huge strides to a more sustainable way of working. Over the past few years there has been a massive improvement in production methods to create materials with eco credentials, to manufacture products made using corn starch or sugar cane, products that are 100% biodegradable and are referred to as Bioplastics. Or they are made using sustainable, recycled or partially recycled material.

These processes are being constantly refined. As the number of such processes is increasing all the time, we've highlighted some of our most widely used.

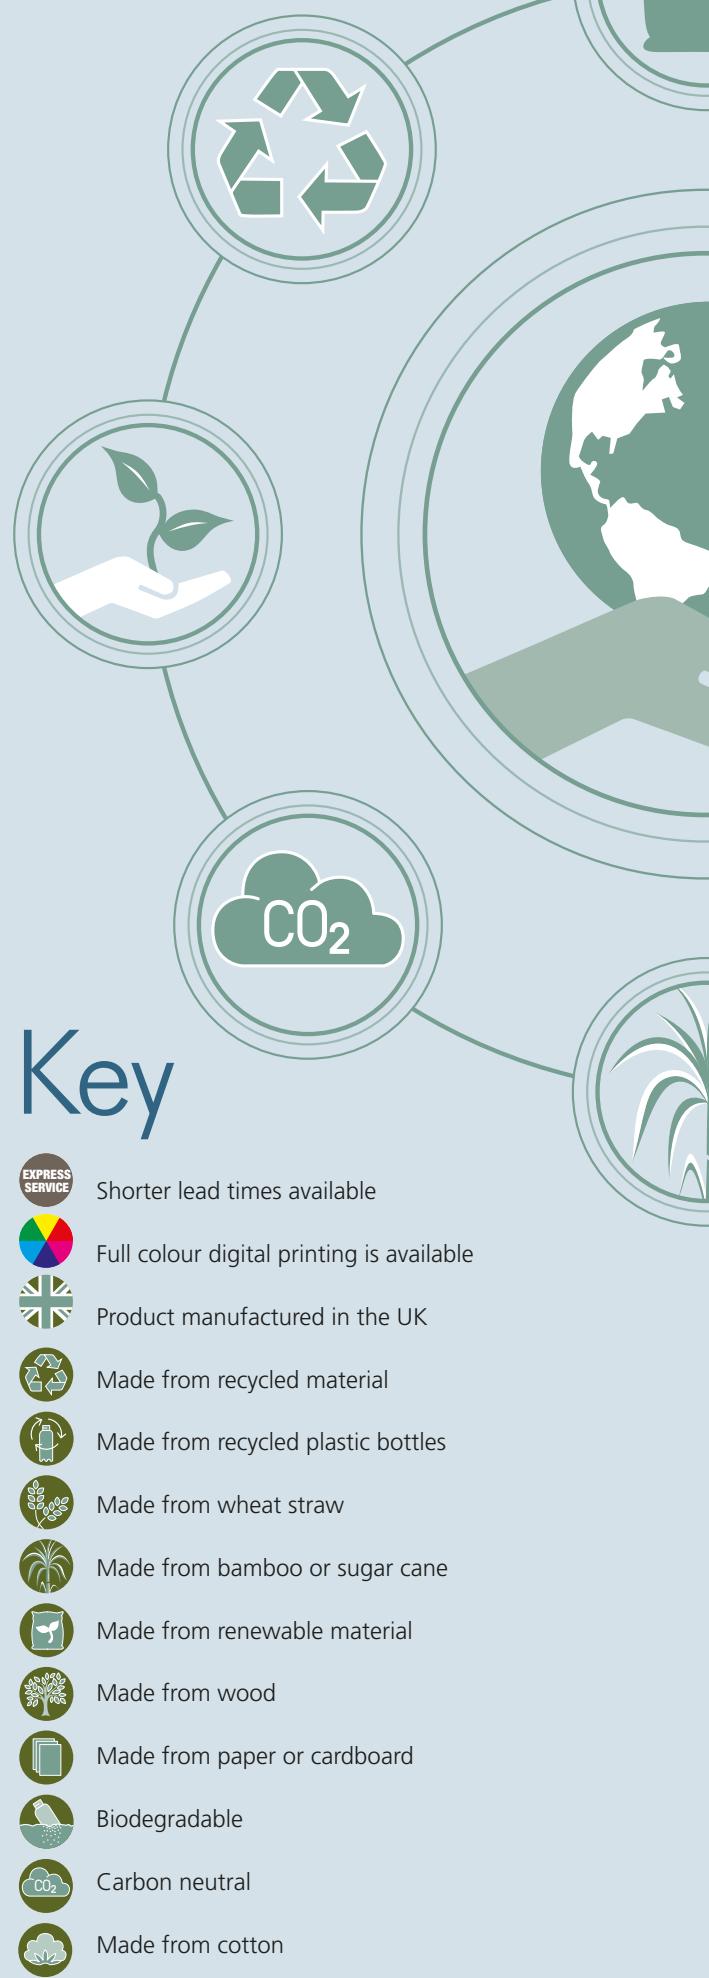

General terms

This catalogue has been printed and bound in the UK. We have used FSC® certified paper which is carbon balanced. Carbon balanced paper is a simple way for us to reduce the carbon impacts of our paper and printing, reducing our carbon footprint and impacts on climate change. Carbon Balancing is delivered in partnership with World Land Trust, an international conservation charity, through the protection and restoration of threatened forests in the tropics.

Some of our products are imported and even our UK manufactured products are subject to extreme volatility in currency and freight prices. It is vital you check prices before placing any orders. Origination is the set up charge for printing, embroidery or engraving and will vary depending on product and how many colours are required. Please ask for a detailed quotation.

All prices shown in the catalogue are exclusive of carriage and VAT unless otherwise stated. The products shown in this publication, names or trademarks DO NOT imply that these products have been supplied to, or endorsed by the owners of these said names or trademarks. They are used merely to show the effect of personalisation of the item shown. It is not our intention to cause any offence to the owners of said names or logo and we apologise for any inconvenience that this may cause. We reserve the right to alter any details or design of products illustrated without further notice. We reserve the right of retention of title of all goods supplied until paid for in full in line with our payment terms. We shall be deemed to have completed an order upon delivery of +/- 5% of the quantity ordered. Although every effort has been made to reproduce accurately the colours of the items illustrated. It is not possible to guarantee perfect colour reproduction due to limitations of the printing process.

BIODEGRADABLE MERCHANDISE MADE FROM 100% WASTE PRODUCTS

We are proud to launch a revolutionary new biodegradable polymer; **rHIPS.b**. A biodegradable polymer made from 100% waste and recycled products. rHIPS.b naturally biodegrades in compost, landfill and water by being broken down by over 600 naturally occurring microbes.

Made from 100% waste Biodegradable No microplastics Made in the UK Nature inspired colourways

como

High quality stitched gifts made from recycled bottles (rPET) but with an exceptional deboss quality. The new Como range not only has exceptional eco credentials but has a subtle grained finish and is soft and tactile. Available in 8 colours. Over 70% of the range is made in the UK including notebooks and hand sanitiser pouches. Reach compliant and vegan friendly.

porto

High quality stitched gifts made from recycled bottles (rPET) with an exceptional deboss quality. The new Porto range not only has exceptional eco credentials but has a smooth finish and is soft and tactile. Available in 10 colours. Over 70% of the range is made in the UK including notebooks and hand sanitiser pouches. Reach compliant and vegan friendly.

Cafeco®

Cafeco notebooks are made in the UK from 100% recycled products. Cover material is from post-consumer waste & post-industrial waste from paper coffee cup waste. The card in the cover is recycled. The inner paper is 100% recycled from post-consumer waste. The whole book can be recycled in normal curb side paper recycling. Cafeco notebooks are also vegan.

AWARE™

Impact Aware products are made with AWARE™ tracer. Recycled materials requiring almost zero water in production. AWARE™ applies tracer particles to the raw recycled cotton and then uses blockchain to guarantee the material that enters the supply chain is the same that comes out as apparel. By offering validation, transparency and verification, this can work to eliminate greenwashing and establish more trust in the textiles industry.

CYCLO®

RECYCLED FIBERS

Textile waste from garment manufacturers in Bangladesh is procured and undergoes a mechanical recycling process without use of water, dyes or chemicals. It is then blended with recycled polyester to create a brand new coloured yarn. As sustainable as sustainable gets!

Prevented Ocean Plastic is made from recycled plastic PET bottles (rPET) and produced according to European and North American quality standards.

Prevented Ocean Plastic is categorised as being found within 50km (30mi) of an ocean coastline or major waterway that feeds into the ocean. The countries it is collected from lack waste management infrastructure and collection incentives and have infrastructure that is being overwhelmed by population growth or tourism. There is a significant risk to wildlife if plastic contaminates their ecosystem.

22008 ERGO-I BAMBOO BALLPEN

Eco-friendly, push-button ballpen with bamboo barrel. Complete with practical stylus at its tip and complemented by metal trims.

60 x 7mm
● ● ● ● ● ●

75 x 46mm

SUSTAINABILITY

These bags use a variety of production processes using a combination of eco friendly processes, fairtrade cotton, organic or recycled materials and zero waste production, see below.

ORGANIC

FAIRTRADE®

AWARE
THE TRUE STORY OF SUSTAINABLE FABRICS

Embeds tracers into its fibres to grant consumers the ability to track the entire journey of the product.

Textile waste from garment manufacturers in Bangladesh is procured and undergoes a mechanical recycling process without use of water, dyes or chemicals. It is then blended with recycled polyester to create a brand new coloured yarn. As sustainable as sustainable gets!

This fabric is part of a closed-loop production cycle and made in India from 100% recycled plastic water bottles. This helps to reduce plastic pollution by keeping the post-consumer waste products out of landfills and oceans.

Biodegradable Merchandise Made from 100% Waste Products

We are proud to launch a revolutionary new biodegradable polymer; rHIPS.b.

A biodegradable polymer made from 100% waste and recycled products.

rHIPS.b naturally biodegrades in compost, landfill and water by being broken down by over 600 naturally occurring microbes. The biodegradation process is accelerated 200 times faster than standard plastic and is the

first of its kind on the promotional merchandise market. It works through the addition of a Biodegradable additive that enhances the ability of naturally occurring microbes to consume the plastic.

We have designed and created this range exclusively for the promotional merchandise industry with the planet in mind.

MADE FROM
100% WASTE

BIODEGRADABLE

NO MICROPLASTICS

MADE IN THE UK

23679A CAFECO WELLNESS JOURNAL

Award winning a5 Wellness Journal, with recycled Cafeco cover. Uses 100% recycled paper and whole book can be recycled.

90 x 90mm

This journal has been developed by Karin Blak to catalogue your wellness. It is an easy to use tool for encouraging emotional wellness and physical balance - both at work and at home. Below is a summary of the journal's key features:

Section 1: A Balanced Life

The expectation that you will perform to the best of your ability is a healthy one. However, it is important to remember that it is equally important to take time off and it can help to create a balance at all the work undertaken long to last rest.

You might have noticed how easy it is to scroll through your mobile. To tell yourself that you have longer to answer. Or looking at your own growth to do list, instead of the growth of others. This can be a great way to increase your motivation and affect your health and just overall well-being.

Everyone has different ways of coping with stress. Some people may work, others may exercise or go for a walk. Whatever your coping mechanism, it is important to remember that it is not always the best idea to let stress get the better of you.

There are many benefits to having a positive balance between your work and personal life.

* You feel a sense of psychological health benefits from being able to switch off.

* You feel more engaged at work and experience increased joy in your personal life.

* You feel more balanced in your life.

* You will reduce your chance of experiencing burnout.

* You promote a sense of work-life balance, and your personal relationships will benefit.

The Wellness Journal provides you with suggestions of how to develop a balance between your work and personal life and how to manage your emotions at work.

23680 LIP BALM

berghaus®

NEW

22491 BERGHAUS PRISM PT FLEECE

There is no excuse not to step outdoors and face the cold weather with the great value men's Prism Micro PT fleece jacket. The polartec fleece is lightweight, insulating and comfortable, making it ideal for outdoor activities and everyday use. Two zipped hand warmer pockets allow you to keep your essentials at hand when you are on the go. Black, other colours available on request.

Jack Wolfskin

NEW

22492 JACK WOLFSKIN STORMY POINT JACKET

This is one of the lightest shell jackets in the Jack Wolfskin collection. And although the fabric has a pleasantly soft feel it's also super robust. Add in the legendary waterproof and breathable performance of our TEXAPORE fabric technology and you have a jacket you can rely on to protect you from the weather. Black, other colours available on request.

**NEW****22481 NORTH FACE SANGRO JACKET**

The Sangro Jacket from The North Face is completely waterproof and breathable and uses multi layer Hyvent technology to completely protect you in wet weather. This waterproof jacket has an adjustable hood that easily stows away in its collar and can quickly be unrolled when the rain takes you by surprise. A great waterproof shell jacket, ideal for the spring and autumn. Black, other colours available on request.

**NEW****22482 NORTH FACE GLACIER FLEECE**

The North Face 100 Glacier full-zip fleece is made with brushed, anti-pilling microfleece, with a handy full zip featuring our iconic Half Dome logo. It's crafted from 100% recycled polyester, so you can pull it on knowing you've made a better choice for the environment. Black, other colours available on request.

NEW**22483 NORTH FACE VAULT BACKPACK**

A school backpack with double handles. Ultra-comfortable FlexVent™ suspension system with flexible moulded shoulder straps, a padded mesh back section and a breathable lumbar panel. The main compartment has space for a couple of books and your laptop in a separate protective sleeve. The front compartment has a padded tablet sleeve, zipped storage and space for pens and pencils. Two external mesh pockets for water bottles. Black, other colours available on request.

**NEW****22484 RAB MICROLIGHT VEST**

The Microlight Vest provides fantastic levels of warmth and comfort for the key core body area in a very lightweight package that stuffs into its own pocket. The vest is ideal for all active users, fast and light activities from mountain marathons to alpine ascents and cycle touring to mountain walking. Black, other colours available on request.

**NEW****22485 RAB MICROLIGHT JACKET**

Updated with recycled fabrics, recycled down, zoned micro and nano baffle stitch-through construction. An ultra-lightweight, easy-pack Microlight jacket is the down layer of choice for accessible insulation on the move. Black, other colours available on request.

**NEW****22486 RAB DOWNPOUR ECO JACKET**

Built from recycled 2.5-layer Pertex® Revolve fabric with a fluorocarbon-free DWR treatment, the Downpour Eco is a monopolymer waterproof jacket. It uses a polyester outer and membrane, which means that, in addition to being 100% recycled, it also has the potential to be recycled at the end of its life much more easily than waterproof fabrics made from multiple polymer layers. Black, other colours available on request.
